LUXIS, LA PURETÉ DU PMMA

Transparence ultime, brillance extrême,
transmission inégalée de la lumière, résistance
aux UV et à la corrosion atmosphérique...

Le PMMA (polyméthacrylate de méthyle)
est aussi plus léger et plus résistant aux
chocs que le verre.

LES ACTEURS DE LUXIS CRÉATIONS

1. Michel RIVE, *dirigeant de PLUXI, atelier d'ébénisterie, et de LUXIS Créations Éditions.*
2. Jennifer RIVE, *contact France*
